01 PROFILE

UI UX Product Specialist with 3+ years designing across enterprise platforms, simulation ecosystems, operational tools, logistics systems, gaming, and scalable SaaS. Focused on intuitive workflows, simplifying complex systems, and balancing business goals with usability — partnering closely with product, engineering, and stakeholders from idea to execution.

02 EXPERIENCE

SimPencil MAY 2025 — PRESENT · BENGALURU

UI UX PRODUCT SPECIALIST / CURRENT ROLE

Working on workflow-driven products, simulation ecosystems, creator platforms, and enterprise experiences across a multi-persona product suite.

Mix3D Ecosystem	Designed experiences across Consumer, Instructor, Content Owner, Enterprise, and SuperAdmin platforms with focus on scalable workflows, operational usability, and platform consistency.
Mix3D Studio	Creator workflows, no-code simulation-building experiences, and new scene-type systems for scalable content creation.
Streamer	Designed interaction flows and creator-focused streaming experiences.
GamePay.ai	Contributed to AI-assisted workflow experiences and platform interactions.

The Metromax Group JAN 2023 — JUL 2024 · BENGALURU

UI UX DESIGNER / CLIENT & IN-HOUSE PRODUCTS

Worked on client and in-house products across logistics, loyalty, gaming, and operational systems.

FleetDrive 360	Logistics workflows and operational dashboard experiences.
KLM Loyalty App	Mobile-first loyalty experiences focused on engagement and usability.
Drew's 3PL Worldwide	Workflow experiences for logistics and operational management.
Metro LMD Ops (MLO)	Enterprise operational workflows and internal support systems.
Bingo Bash & GSN Casino	Contributed to Scopely's gaming UI systems and engagement-focused interaction experiences.
